Strategy Group Meeting, January 2021

The Strategy Group of IRG-Rail met to address important issues to tackle in 2021. During their meeting on 28 January the regulators discussed, among other topics, developments in the European rail sector such as TTR, the Rail Facilities Portal and the consequences of Brexit.

The regulators also chose to give IRG-Rail's logo a face-lift. The original logo had served the network during its first ten years of existence.
