IRG-Rail Forum 2021

On 9 June 2021 IRG-Rail invited the railway market to participate in the IRG-Rail Forum. The Forum was established in 2017 to facilitate the exchange of regulatory authorities with stakeholders, the EU Commission, European transport ministries and European railway supervisory and safety authorities on the monitoring of the rail freight corridors. With this year's topic, the planned Timetabling and Capacity Redesign, TTR, IRG-Rail took a broader view at the future of access to rail.
